

Married People's Dance March 4th Committees Preparing For Big Crowd

The executive committee for the married people's dance met Tuesday afternoon, checked up the replies to questionnaires sent out to married people last week, and decided to go ahead with their second annual dance.

As soon as it became known that there was some doubt about the dance being held, married people from all over the valley immediately protested the idea of abandoning the plan, and hastened to send in their assurance of support and patronage.

In-as-much as Mr. Lovejoy has an unusually good picture booked for that night, and will run same from 8:00 until 11:00 P. M., the committee in charge of the "eats" has rented the Baptist church, and will serve lunch there.

Fuller's eight-piece orchestra has been practicing faithfully on some new music, and promise to give the dancers "a plenty and then some."

Arrangements are being made to take care of the big crowd, which all indications and reports warrant the committees in expecting.

Little Girl Breaks Leg

Mrs. Alvin Johnston and children of Victor, who were coming over Teton pass for a visit with Mrs. Johnston's parents, Mr. and Mrs. Geo. Goodrick, and other relatives and friends in the valley, were subjects of what might have proven a very serious accident, as was also Guy Goodrick, of Wilson. The accident occurred near the Fox sawmill. Mr. Goodrick, who was driving, stepped onto the roller in front of his load to urge on one of his horses, when his feet slipped and one of them was caught by the runner; the rough-lock chain got him next and he was dragged for some distance. Mrs. Johnston jumped in an attempt to secure the lines, but failed. The lead team was full of life and soon discovered they were free. In making a curve, the sleigh was pulled up onto the side of the road; the load was thrown off, and with it Mrs. Johnston's three little girls. Catherine, five years of age and the eldest of the three, suffered a broken leg, and Mr. Goodrick's foot and leg were badly hurt.

The party was picked up by Jay Goodrick, who was not far behind with a load of gasoline. The injured child was brought to Jackson to the home of her grandmother where, under the care of Dr. Huff, she is doing nicely. The mother and two children escaped without injury.

To England On Mission

Henry May returned last Sunday from Brigham City, Utah, where he went to bid good-bye to his father, Bishop Jas. I. May, who leaves this week for England, on a mission for the Mormon church.

Mr. May made a similar trip to England several years ago.

Dr. R. O. Young will be in Kelly, March 15, and in Jackson, March 16. All who are suffering from headaches or eye strain should be sure to see me on above dates. If any of my patients are not well satisfied, don't fail to see me. 2-24:3-9

Governor Carey Signs New County Bill

Name Changed to Teton

On Friday, of last week, Governor Carey signed the bill authorizing us to organize a new county.

Evidently this assures us of our long-dreamed-of desire to govern ourselves and dispense our tax money here in the valley where it emanates from.

Too much credit cannot be given Representative Deloney who, by hard, faithful work, got the bill safely thru both houses.

Soon we shall give our readers full particulars as to officers, their salaries, and the necessary steps to be taken to effect the organization of our new county.

After signing the new Teton County bill, Governor Carey handed the pen to W. C. Deloney, to be kept by him as a souvenir and memento. The pen with which he signed the Sublet County bill was likewise given to P. W. Jenkins, the father and advocate of the bill.

Hugh McDermott came down from Moran last Friday afternoon, and left the next morning for Heise's Hot Springs, Idaho, where he will be employed in charge of the ferry.

Leave your coal orders at the Jackson Leather Shop. 1-27:1f.

President Wilson Issues Park Extension Proclamation

First Step in Move

What, evidently, is the first step in a new move on the part of park extension advocates was taken on January 28, when President Wilson issued a proclamation, which reads as follows:

Executive Order--Wyoming

Under authority of the act of Congress, Approved June 25, 1910; and amended by the act of August 24, 1912, the following described public lands in the state of Wyoming are hereby temporarily withdrawn, subject to the conditions, provisions and limitations of said acts; for the purpose of classifying said lands, and pending enactment of appropriate legislation for their proper disposition.

(The remainder of the lengthy proclamation deals with defining the boundaries of the lands in question.)

Signed, WOODROW WILSON,
Washington, D. C., Jan. 28, 1921

The area involved includes practically all the land between Snake river and the Teton, north of the south end of Jenny's lake, and the country between the Buffalo and the present park line.

WORK WANTED. On ranch, or driving team. Fred Moyer. Kelly, Wyo. 2-17:1f

Steele--Satterfield Boxing Match Large Crowd Expected March 5th

Judging from the number of applications already made for reserved seat tickets, the boxing match, (with several good preliminaries) scheduled for Saturday night, March 5th, at the Jackson Club house, will draw one of the best crowds seen at an event of this kind, in Jackson, for a long time.

Both men are in first class shape; and both have been grilling for the past two weeks, hard and faithfully, in order to be in the very best of condition. They are well matched; of about the same age,

and will both weigh in at the same ringside weight--133 pounds.

Steele's friends and backers are confident he can knock out the Wilson man; while Satterfield's friends are backing him to the limit. The two men have never met; consequently there is no feeling between them. But both understand that the affair is to be more than a "friendly exhibition." Each is confidently expecting to get a decision over the other.

No More Small Pox

Wes Mulherin, who, with a number of boarders and employes, was quarantined at the hotel Jackson last week, evidently was about recovered from the small-pox, when the quarantine was established. At least no new cases have developed among those who were exposed. The quarantine will probably be raised in a day or so.

Ben Goe, who had a pronounced case, is up and able to be out. So far, none of the other members of his family have succumbed to the disease.

Born, Tuesday morning, to the wife of Grover Bassel, at St. John's Hospital's fine nine pound boy.

Born to the wife of Dave Timmins, on Friday of last week, a nine pound girl.

When in need of clean clothes bring your dirty ones to Mrs. Vernon, Kelly.

MR. CATTLEMAN!

Just as a suggestion; suppose you kill two birds with one stone.

Plan to attend the meeting of the Jackson Hole Horse and Cattle Association on the afternoon of March 4th, and the Married People's Dance that night.

Meeting will be called to order at 2:00 P. M., SHARP! (Not 4 P. M.) VITAL QUESTIONS affecting and interesting every stockman in the valley will be discussed. LET'S GO!

J. G. IMESON, Sec'y.
