Projects are located throughout Idaho's 44 counties, range from large to small and cover much more than roads and bridges. Airport runway improvements, bicycle routes, public transportation projects and pedestrian safety plans are all part of the programmed improvements. Project selection is determined through technical data, as well as input from local officials and residents.

Individuals who need special accommodations should contact CivilRights@itd.idaho.gov or 208-334-8884. TTY/TDD users Dial 711 to use the Idaho Relay System. Persons needing an interpreter should contact 208-334-8496.
